

PHILEMON HINI, GHANA

This case study was generously provided by Philemon Hini from Ghana. In his line of work Philemon deals with fraud and forgery, computer crime, industrial espionage, illegal use of SIM boxes.

The **business challenges** that led Philemon to evaluate and use Belkasoft Evidence Center:

- Delivering results in time
- Finding all relevant data
- Analyzing wide spectrum of applications
- Combining various data sources in one case (mobile, computer, cloud)

Belkasoft has greatly reduced the amount of time I spend investigating a case.

Philemon finds the following BEC viewers the most useful in solving cases:

- Case explorer
- Overview
- SQLite viewer
- Timeline
- Bookmarks
- File system explorer

The **benefits** Philemon Hini has experienced using Belkasoft products:

- Simple user interface
- Comprehensive Live RAM analysis
- Analysis of processes and malware
- Mobile, hard drives and cloud acquisition
- Amount of artifacts and data types supported out of the box
- Fast data extraction
- Good Internet artifact extraction

General impression

“Belkasoft has greatly reduced the amount of time I spend investigating a case. Moreover, my junior analyst can use it with minimal training. Analyzing Internet artefacts is less of a pain now.”
