LEANDRO CATINI, POLÍCIA CIVIL, BRAZIL

This case study was provided by Leandro Catini from the Brazilian Police Forces.

He uses BEC to investigate homicide, fraud and forgery, theft and handling, computer crime, drugs, property damage.

The **business challenges** that led Polícia Civil to evaluate and use Belkasoft Evidence Center:

- Analyzing wide spectrum of applications
- Looking for cost-effective solution
- Combining various data sources in one case (mobile, computer, cloud)
- Looking for easy-to-use tool which doesn't require time-consuming trainings

> " *BEC went far beyond what I have imagined.* "

Leandro Catini finds the following BEC viewers the most useful in solving cases:

- Dashboard
- Case explorer
- Overview
- Bookmarks
- File system explorer
- Registry viewer

The **benefits** Leandro Catini has experienced using Belkasoft products:

- More evidence from deleted and destroyed data
- Simple user interface
- Comprehensive Live RAM analysis
- Analysis of processes and malware
- Mobile, hard drives and cloud acquisition
- Fast data extraction

General impression

"I am a Special Police Officer and Graduate in Digital Expertise, so I was in search of an economic solution that was made for digital investigations, and I was very pleased when I downloaded the Belkasoft Evidence Center evaluation license, because it went far beyond what I have imagined. I have not yet had the opportunity to use it on mobile devices, however, if it's similar to hard drives it will be amazing."
